

<b>ON THE ROAD TO THE HYPERVERSE</b>
<b>Woke as Substance for a Practice of Co-Evolution</b>
Keno Oneo in Conversation with Jochen Franck

*Franck:* You describe the Hyperverses as a new way leading us to a better society. And you emphasize that this path will force us humans to transform quite drastically. My first question is: What are the decisive factors of this transformation? This is a topic I would like to explore in more depth.

*Keno:* This transformation is what I describe as

**the Great-Quake**

...that will confront all of us with the following challenges.

1. This transformation is what I describe as the Great-Quake ... that will confront all of us with the following challenges:

**We use our Consciousness...  
that is, our Mind...  
in a dominating  
and hierarchizing manner.**

**We dominate NATURE  
through our STE system  
(Science, Technology and Economy).**

2. For this "suppressive co-existence" we have consistently programmed our official and public Consciousness...through our system that we call "culture"... to linking truth (= cognition) and order (= power):

**We use our Consciousness  
for the Creation of those truths  
that maintain and permanently develop  
this "suppressive co-existence"  
(= Evolution of our own Evolution).**

3. This scheme, supported and promoted by the society, which we use for the Evolution of our Evolution, reads:

**The Better originates  
through the Wisdom of Differentiations  
(= Innovation / Diversity).**

4. As Humanity, we have been tremendously successful with this stratification of Innovation, especially in the 19th and 20th centuries:
  - The combination of creative intelligence and culture has greatly enhanced and accelerated our own Evolution.
  - The domination concept has thus become the engine of our progress.
  
5. In this worldly progress, however, is also the basic scheme of Creation (the Essence) inherent, which consists of Interaction, Differentiation and Unification. (Thesis of H. Pietschmann). This means:
  - The better our own Evolution of Evolution works, the more our human Spirit integrates into the basic scheme (Essence) of Creation.
  - This leads to the paradoxical situation that we accomplish evident worldly progress, while at the same time we more and more marginalize the Essence of Creation.
  
6. We marginalize the Essence of Creation by projecting our concept of domination (which we experience as "successful") onto how we deal with Creation:

**We try to impose our  
Concept of Domination on CREATION.**

7. Creation, however, demands the simultaneity of Differentiation and Unification. The more we force Creation to act as co-creator of our progress strategies and our domination concepts, the less help and support we get from Creation.

*Franck:* So, you claim that Creation no longer wants to support our progress game, which has been so successful so far. Is that your statement?

*Keno:* Yes. The more Evolutionary Fitness we develop as Humanity, the more intensely the human Spirit merges into the Essence of Creation.

*Franck:* Well, yes, I understood that. But why is Creation blocking now?

*Keno:* Because we as human beings are "the children of Creation." So, we as Humanity are the living representatives of

**Differentiation  
and Unification.**

However, we only stratify Differentiation ... that is, the combination of

Freedom and Innovation ... which is also the cultural basis of our creativity.

So, we connect the Creation aspect of Differentiation with our domination concept. This contradicts the Essence of Creation. That's why Creation blocks ... the more we spiritually integrate into the Essence of Creation, the less help we get from Creation. This is our fundamental problem:

**We lack the  
Factor of Unification.**

*Franck:* Wait, wait. In our culture we cultivate the concepts of love, closeness, empathy, community ... so we practice ... and we practice daily ... everything that has to do with Unification and We-ness.

*Keno:* Yes, we have made the whole complex of Unification a private matter and thus a mixture of comfort and longing.

But if you look closely, you'll see that the strategy we use is:

**Anything that has to do  
with Unification is not used  
as a tool for Evolution.**

So, we believe that interfusion, Inclusion and We-ness should play out on secondary courts. They are not wanted on the main playing field of our Evolution. Since they disturb the efficiency of our concept of domination. This is our belief-concept, which connects the Cartesian duality (subject-object-separation) with our domination-concept. The motto we follow is:

**The more objectively we can see the world,  
the more intelligent our  
actions in the world will become.**

*Franck:* So, for you, the subjective ...

*Keno:* ... thus, the Intrinsic ...

*Franck:* ... become an important effect factor when it comes to progress, future and Evolution. Correct?

*Keno:* Yes. What we have to consider is this:

- The more we have to generate the betterment of our present world (reality) by the improvement of our distant futures (= future 2 / 3), the more we need the Participation and Cooperation of Creation (= Co-Evolution).

- Future 2 / 3 is that zone where the Now-of-Creation (Nagual) is waiting for us.
- So, if we want to practice Co-Evolution, we need the Now-of-Creation. But since this Creation consists of the interaction of Differentiation and Unification, we will be forced to make our Consciousness as identical as possible with the Essence of Creation. As a sketch:

So far, we have only developed a worldly intrinsic. This mainly consists of a mixture of more or less negative feelings (conflicts / stress) and relieving longings or mental compensation actions.

A Nagual- ... thus Creation-bound ... Intrinsic does not exist at present yet.

*Franck:* What would such a Nagual-Intrinsic be then?

*Keno:* It would be an interaction of a Nagual-Identity and Nagual Mind-Cards.

The fact that in the last years, "Identity" has become so important ... partly linked with "Authenticity" ... shows that the youth (especially the Teenagers) is already on the way to a Nagual-Intrinsic.

*Franck:* What about the Nagual Mind-Cards? Is something happening there?

*Keno:* Yes, enormously:

**All initiatives that belong  
to the spectrum of Woke  
are precursors for the coming  
Mind-Carting that will instrumentalize  
the Factor of We-ness (Inclusion)  
in such a way that it can become  
productive for our Evolution.**

*Franck:* We-ness will be integrated into the domination concept? Is it meant to be?

*Keno:* No, absolutely not. On the contrary, We-ness will begin to break the link between domination and the power of knowing better ... not immediately, but successively. My prediction on this is:

**As the values of the Woke-Pioneers  
become more and more integrated  
into the Hyperverse, the "Unification" factor  
will begin to dissolve the dominance of  
the "Domination" factor.**

**We will get a Society-of-Creation  
because this kind of "Society" is  
the ideal foundation  
for the practice of Co-Evolution.**

*Franck:* Now, if I interpret this correctly, you are assuming that we are becoming more and more aware that our concept of domination is harmful to us ...

*Keno:* ... yes, that is what is coming:

**We no longer interpret the  
many crises we have as  
an intellectual failure,  
but as a growing suffering  
from too little We-ness.**

*Franck:* Okay, so more We-ness. More Unification and Interfusion. So basically, the operationalization of Love in favor of better Evolution.

*Keno:* Yes, well formulated:

**We-ness will become  
the raw material that  
enables us to become better.**

In order for this to happen, however, we should free the factor of Differentiation, which is also part of the Essence of Creation.

So far, Differentiation and Innovation have been linked to "Freedom" in a one-sided manner. What we have to organize now is

**the Liberation of Freedom  
from the Concept of Domination.**

The many Woke initiatives are ultimately geared towards this goal:

All in all: the improvement of our Future-Intelligence and the qualification of our Concepts of Progress will be shaped by the following factors:

- We need the functional extension of Mark Zuckerberg's Metaverse by integrating Metabliss.
- The resulting new

**Hyperverses**

will enable teens to develop an expanded I.

- Likewise, it will enable Young-Adults and Woke-Pioneers to shape the Core of Woke into the Mind-Cards that we will need as a Society to
  - develop a better Future-Intelligence
  - develop an Inclusive-Fitness
  - develop a better "Spirit of Democracy"

**For the development of a Practice for Co-Evolution, we need the Hyperverses.**
